

EU Type Examination Certificate

Date: 2020/02/12

n. **001200701/OE**

Validity:
2025/02/11

This document cancels the previous one nr. 001172417/OE dated 2017/06/16

The hereunder described items of Personal Protective Equipment have overcome positively the "EU type examination" (Module B), proving their conformity to the safety and health requirements of the Regulation (EU) 2016/425 (Annex II)

Manufacturer: (Responsible of the PPE)	GIASCO s.r.l. via Zaupa 50, 36072 CHIAMPO (VI) – ITALIA	
Type of PPE:	Safety footwear in conformity with EN ISO 20345:2011 class I (= footwear in leather and other materials)	
Category of PPE:	II : "medium" risks. This certificate is based on reference standards listed below: its validity is no longer ensured should new version of the standards come into force.	
Model	"KU095T" Line KUBE	
Description:	 <p><u>model</u>: A (low shoe); <u>fastening system</u>: adjustable straps by means of a hook and loop fastener positioned on the instep girth; <u>processing</u>: direct injection; <u>outsole</u>: clear compact PU marked "KUBE MADE IN ITALY ANTISTATIC OIL RESISTANT ANTISLIPPING SRC"; <u>midsole</u>: dark grey foam PU; <u>upper</u>: grey suede grain leather declared thickness 1,8-2,0 mm (code MP 20100 T) partially perforated and with wide lateral openings; <u>collar</u>: fabric ALLIGATOR, color G.L.B. matched with MTP 3mm (code AC 20844 V); <u>tongue/bellows</u>: made of the same material as that of the upper; <u>vamp lining</u>: grey felt IBILINE 7121 (code AC 20890 Q1); <u>rear/quarter lining</u>: light grey three-dimensional fabric SURF (code AC 20826 Q1); <u>tongue lining</u>: red three-dimensional fabric SURF (code AC 20826 RO); <u>insole</u>: multi-layered fabric ZERO PERFORATION SLIM K18.0/3 SLIM (code AC 20740), which also serves as a penetration resistant insert; <u>removable insock</u>: black/red/grey foam material SHOCK, perforated in the forepart, matched with black fabric in contact with the foot, marked "ANTIBACTERIAL CONDUCTIVE DUAL COMPONENT PERSPIRING ABSORBING" (code AC 20428); <u>toecap</u>: polymeric material article PS 101 (code AC 10781).</p>	
Technical Standard:	EN ISO 20344:2011 (UNI EN ISO 20344:2012)	Personal protective equipment – Test methods for footwear
	EN ISO 20345:2011 (UNI EN ISO 20345:2012)	Personal protective equipment – Safety footwear
Intended use:	general industry, engineering industry, agriculture, warehouses, works on trucks, cranes.	
Size range:	from 34 to 47	
Technical File:	DC-11663/E	
Test report:	RCT n°3910604.01/E	

EU Type Examination Certificate

Date: 2020/02/12

n. **001200701/OE**

Validity:
2025/02/11

Functions and
performance levels:

basic requirements for safety footwear (SB) (see Table 2 and 3 of EN ISO 20345:2011): all mandatory ones, among which:

SRC = Slip resistance – meets the following requirement:

- surface: ceramic / lubricant: detergent solution;
- surface: steel / lubricant: glycerol.

Additional requirements (Tab. 18 and 20 of EN ISO 20345:2011):

S1 = closed seat region, antistatic properties, energy absorption of seat region, resistance to fuel oil; **P** = penetration resistance of the sole.

Note 1: the penetration resistance of the synthetic stitch proof insole tends to decrease with the diameter of the perforating object; in return the synthetic insole offers more protective surface and ergonomics advantages (flexibility, insulation, humidity and impact absorption).

Note 2: the footwear also meets the requirement in accordance with IEC 61340-5-1:2016 (IEC 61340-4-3:2017) for the electrical resistance **ESD** (electric dissipative footwear).

Marking:

printed directly on the tongue of the footwear and displaying the following information:

- **CE Marking**;
- Name of the Manufacturer (on the footwear) and Trademark (printed on the outsole);
- item designation (alphanumeric code);
- nr. and year of the reference Standard and safety symbols;
- size indication (printed on the outsole);
- date of manufacture (printed on the outsole with clock indicator).

NOTE: the Technical File contains a more detailed description of the PPE (material, method of assembly, photographs or drawings), performance data, safety functions and level of protection, elements of conformity to the basic and supplementary requirements. The Technical File is integral part of the present Certification, which has to be kept available by the applicant to be forwarded - upon request - to the entitled person (supervising body, Controlling Officer).
